## Client Success

Overland clients the Westcott family, were successful in winning the Doug Bicket Memorial Flock Ewe Competition (Parkes). Following this achievement they participated in the Central West Zone Flock Ewe Competition consisting of champions and reserve champions of flock ewe competitions from Parkes, Trundle, and Condobolin. At this competition they were awarded Reserve Champion.

The Westcott family are to be congratulated on the management of their flock. The winning maidens displayed a very even type, consisting of well covered heads, long white quality wools on a robust uncomplicated body. With very high lambing percentages they have produced a very profitable flock.

Overland clients have had much success winning the Doug Bicket Memorial Maiden Ewe Competition 6 times in the last 8 years with 3 different clients. Proving that the consistent, predictable breeding that the Overland genetics provides.

Here at Overland we sell by selection privately. We believe that the success of our clients flocks is of the utmost importance. It gives clients the ability to select a line of rams of a consistent type to make an impact on their flock, therefore reaching their breeding objectives quicker at a predictable price.

At the Australian Sheep and Wool Show in Bendigo, Overland purchased the 2024 Australian All Purpose Merino Champion. (TW230182) was top price ram of the sale for \$25,000 and purchased from Terrick West Poll Merinos. (TW230182) will be a great addition to our stud as he is a very balanced ram and showcases desired traits.

## Testimonial

I have worked with the Magill family as their wool broker and have always found their sheep to produce white well nourished soft handling wool, with defined crimp and long even staple length. With varying seasonal conditions from year to year their wool always yields well.

The Overland Merino & Poll Merino wool clip has always attracted strong support and competition at sale with buyers keen to purchase their wools which process very well.

Overland Merino & Poll Merino are a very productive package with heavy fleece weights, large frames and high fertility which is a priority in their breeding program.
